WORK EXPERIENCE

Senior Javascript Developer   May 2020 - Present
Tokenized, Melbourne
https://tokenized.com/
Summery
Tokenized is a Bitcoin wallet for issuing, managing and trading digital tokens. I built out the front end which was packaged as an electron app. It was a difficult frontend to build because we store the users keys locally and used them to sign transactions and contracts.

React   Redux   SCSS   Product

Senior Javascript Developer   Mar 2018 - 2023 **(1 year 10 months)**
Blockbid, Melbourne
https://platform.blockbid.io
Summery
Blockbid is an Australian crypto currency exchange. I started off on the frontend but eventually became lead tech and worked on every moving piece of the exchange. I really enjoyed working with liquidity providers and connecting their platforms to help us achieve liquid markets.

React, Apollo, Styled Components   Node.js / Rails
Docker / Heroku / GCP   Used Figma for design and UX work
Optimizing markets with tens of millions of rows using SQL.
